NATIONAL ECONOMICS UNIVERSITY

2023-2027 (Expected)

Bachelor of International Economics

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI, Excel, Google Sheets, Dashboard Design.

Data Engineering: MySQL (SQL), ETL/Data Pipelines, Data Cleaning & Transformation.

Project Management: GitHub.

WORK EXPERIENCE

General Statistics Office of Vietnam

03/2026 - Present

Data Enumerator

- Collected, standardized, and validated enterprise data via Web-forms, ensuring high accuracy and confidentiality.
- Communicated directly with business representatives to resolve queries and track data submission progress.
- Monitored daily data input, identified anomalies/missing information, and performed preliminary data cleaning before reporting to supervisors, ensuring strict data accuracy and confidentiality.

Dream Viet Education JSC

04/2025 - Present

Online English Teacher

- Conducted engaging English lessons for children through the online learning platform.
- Assisted parents and students with class access, scheduling, and basic technical issues.
- Developed effective communication and time-management skills in an online teaching environment.

PROJECTS

EduPlus Customer Churn Analysis | Power BI, DAX - [GitHub](#)

- Analyzed behavioral data of 10,000 customers to identify key churn drivers (login frequency, payment behavior, support satisfaction)
- Segmented customers into 3 risk groups via DAX, revealing 84% fall in medium-risk with ~1,300 passive churners
- Built a 4-page interactive Power BI dashboard with drill-through and conditional formatting for stakeholder presentation
- Proposed retention strategies per segment, projecting churn reduction from 28.97% to ~22–24% within 6 months

Customer Churn Analysis Dashboard | Power BI, DAX - [GitHub](#)

- Analyzed 10,127 credit card customers to identify behavioral drivers of churn (16.07% attrition rate)
- Built interactive dashboard with RFM-based segmentation (Loyal / Middle / High Risk) using DAX and Power Query
- Uncovered key churn signals: attrited customers averaged 45 vs 69 transactions/year and 16% vs 30% credit utilization
- Proposed targeted retention strategies per customer segment based on transaction and engagement patterns

CERTIFICATIONS

IELTS Certification (Overall Bandscore: 7.0), Office Excel 2016

Effective Data Reporting and Visualization - VNPT AI

Financial Data Analysis and Decision-Making in the Advent of AI - Banking Academy of Vietnam
